SUMMARY

Detail-oriented and solutions-driven Information Systems graduate currently pursuing a Master of Commerce in Informatics. I bring hands-on experience in software and web development, systems design, and data analysis through academic projects and freelance tech support. Proficient in developing APIs, managing databases, and deploying cloud-based applications. Passionate about solving real-world business problems through technology, with a strong commitment to continuous learning and professional growth.

EXPERIENCE

Founder & PC Technician

Jan 2019 – Present

Tech Plug – NWU, Remote & On-Site Support,

- Provide 24/7 support for Windows 10/11 troubleshooting, installation, and recovery.
